Bergamo is divided in two parts, the Lower and the Upper. What interests the visitor is the Upper part of the city. Placed on a hill and surrounded by imposing fortifications of the XVIth century, Upper Bergamo, with its medieval glamour, is surely the most characteristic and charming part of the city. Palaces in the old Venetian manner, towers, kiosks, gardens, fountains, goldsmith and artisan workshops look out upon the narrow historical streets.

In Bergamo the group will be followed by a local guide who will conduct it through the streets of the Medieval town that will be reached by funicular. Nice lunch in a typical restaurant overlooking the main square of Bergamo.

Activity #11 – DRIVING CAMP

The Driving Camp is a particularly special driving school and it has been designed for people who wish to learn how to control cars in every kind of situation.

The Driving Camp stands out though, because it has introduced into its programmes a determining novelty; not just safe driving is taught in the courses, but above all **active driving**. This is a significant change of adjective.

Active Driving establishes that the driver does not submit to the vehicle, but rather he is in complete command. Therefore, while safe driving schools teach how to react to events, in Active Driving the pupil learns how to anticipate them, which is much more important!

The result is that, at the end of the course, one certainly feels more in charge of one's car and more "agile" on the road.

Activity #12 – ON THE PATH OF LEONARDO DA VINCI IN MILAN

Do not forget that Milan is the place where Leonardo Da Vinci spent many years leaving considerable evidences of his work such as *The Last Supper* or the Castello Sforzesco that it is possible to organise a full-day at the discovery of the works of *the genius*.
